TEACHING TYPING SKILLS SINCE 1995

## NEW Download Files for MAC and PC launched!

### Summer fun and long relaxing days...

Whilst we get ready for the summer holidays, fun and stress all rolled into one - why not fill the time, preparing your kids and yourself for the year ahead and learn a 'skill for life'. Our typing course is fun, simple to use, breaks down into modules, proven and from only 19.99, it make sense - doesn't it? Not many things in life are so affordable and with our new program, written in HTML5 technology and filled with fun animations and graphics, learning is accessible from your laptop, desktop or even your tablet! - although we always recommend using a keypad and practising good posture!

According to statistics, more than 10% of the world's population suffer with Dyslexia. Our new SEN/ Dyslexia edition teaches typing skills, whilst addressing

disturbances related with visual stress and was developed with advise and guidance from Dr. Sue Fowler and her team at the Dyslexia Research Trust. Featuring a unique © Preference screen, the user can select fonts (special licensed Dyslexic fonts included), font size and colour, background filters (incl. 2 special filters as advised by the DRT) and choice of keyboard style... The screen is simple to use and tailor makes the course to individual preferences for optimum visibility and reading comfort - IT WORKS.

### KAZ will be exhibiting at:

Please come and see us.

**TES SEN Show** -  
October 6/7th at the  
Business Design  
Centre, London N1

**Bett Asia** -  
November 15/16th  
2017, Kuala Lumpur,  
Malaysia.

### Why do so many people use KAZ?

- Because the program caters for all abilities.
- It's accelerated learning teaching method works.
- It offers options of both 'Standard' or 'SEN/Dyslexia' versions in all education licenses.
- It's focused and light hearted.
- Because it WORKS!

**Come and see us at the TES SEN Show - Business Design Centre, N1  
October 6-7th - Stand 60**

Also, just launched is our KAZ Guardian Angel - protecting you against RSI (Repetitive Strain Injury). See page 2 for more details...

**Homeschool Edition** - to all educators and homeschool parents, please view our education page for more details. Due to numerous requests, our download version is now available as a yearly license and at a reduced price. So, it always stays on the laptop. It can be used anywhere and at any time (school or home) - without the need of an internet signal.

**NEW PRODUCTS  
COMING SOON...**

Corporate Edition  
SCORM

**Affiliate Scheme** - earn commissions on every product sold when someone clicks the link on your website and purchases a product from our website.

We have just launched our new affiliate scheme, so why not make KAZ work for you? Simply click on the affiliate link (see bottom bar of our webpage) and fill out the details. Once received, we will send you our Affiliate agreement and Summary proposal. Simply sign and send back and once approved, these will be uploaded to your personal Affiliate page. There are no onerous obligations or commitments and you can start earning commissions immediately. Select from a range of our banner ads to display on your website or just embed your unique affiliate link into your article. Each time someone clicks and purchases a product, you will earn a commission but please remember there is a minimum transfer amount of £(\$) $50.00$  - this is to avoid excessive bank transfer charges.

**Teachers** -why not become an affiliate too and get KAZ free for your school or help KAZ pay towards your school license? This can be offset against your renewal fee or a payment can be made back to your school fund! - whichever you prefer. It's really simple, just add one of our KAZ banners to your school website and each time someone clicks the link and buys a product from our shop, your school will earn a commission.

**Come and see us at the Bett Asia show - Nov 15-16 November 2017**

**KAZ Guardian Angel - so what's all the fuss about?**

KAZ Guardian Angel is a specifically designed program intended to protect you against RSI.

**So, what is RSI?**

The debilitating condition of RSI or Repetitive Strain Injury is a general term used to describe a range of medical conditions caused by the repetitive action/overuse of part of the upper body (forearms, elbows, wrists, hands, neck and shoulders). The symptoms can vary, but often include; pain or tenderness, stiffness, tingling or numbness, swelling and cramp in the muscles, nerves and tendons and can have devastating long term effects on the sufferer.

When typing for long periods without rest, problems can arise with the hands and wrists - which can be further exaggerated if posture and workstation set up is poor.

**See our website for more details and start protecting yourself against RSI.**
