

JOCKEY CLUB
SARAH ROE SCHOOL

‘Our students use the program at school and also practice typing at home.’

Jockey Club Sarah Roe School - ‘A Hidden Gem’

Tucked away in the leafy Homantin area of Kowloon and unknown to many, the Jockey Club Sarah Roe School (JCSRS) is one of the true jewels in Hong Kong’s education system. Dedicated to children aged five to nineteen with special educational needs, the school is the only one of its kind under the English Schools Foundation (ESF) umbrella.

Founded in 1985, it owes its unusual name to the Hong Kong Jockey Club, who provided the school building and Ms Sarah Roe, an occupational therapist, who worked with children with special needs in Hong Kong.

The staff includes eight specialist teachers, a PE teacher, six therapists and a team of educational assistants, work together to tailor the curriculum to suit each student.

Classes range from seven to ten students; each having an individual education plan, enabling staff to meet individual needs.

"We are proud of our stimulating, happy and caring environment and dynamic, contemporary and balanced curriculum. We have a strong focus on literacy, numeracy and promoting self-belief, confidence and independence. Our staff are hardworking, committed and passionate."

Principal, Karin Wetselaar.

JCSRS uses KAZ's neurodiverse touch typing software to help promote literacy, ICT skills, communication skills and build confidence and independence.

We asked, Daphne Ip, Occupational Therapist and administrator of the KAZ course what she thought of it.

"Our students love it! Not only do they use the program at school but also practice typing at home."

KAZ's Mainstream and Neurodiverse typing tutor was shortlisted as a Bett Finalist 2019 and as a finalist by Teach Primary and Teach Secondary.

"The aim of the award is to reward products that make a distinct contribution to supporting learners with special educational needs."

Give YOUR students a head start - teach them to type
