TEACHING TYPING SKILLS SINCE 1995

NEW SEN/Dyslexia Edition launched!

Featuring KAZ's new and unique © 'Preference Screen'.

Due to numerous requests from SEN teachers, KAZ has released a new SEN/Dyslexia Edition.

With help and guidance from Dr. Sue Fowler and her team at the Dyslexia Research Trust, the KAZ program has been further developed to meet the needs of SEN/Dyslexic users - teaching typing skills whilst minimising disturbances related to visual stress.

The program's new unique 'Preference Screen'© offers a selection of options to choose from, which once selected are applied throughout the course - tailor making it to suit individual needs.

This new specialised edition is being offered at no extra cost. In the case of family, educational and business licenses, it will up to administrators to allocate the appropriate license to each individual.

Please take advantage of this new and positive facility.

KAZ relaunched at BETT 2017

KAZ's new HTML5 Online program with new imagery and graphics was launched earlier this year at Bett 2017.

Thank you to everyone who visited us at our stall and for the wonderful response to the new program.
