

Oxford Media & Business School offers an outstanding alternative to university, where students are able to gain practical and real world business skills and knowledge before embarking on an exciting and successful career.

They offer The Professional Business Diploma which allows students to:

- Focus on the areas of business development that will benefit long-term career development
- Plan, consider and study real-world case studies with the feedback from tutors
- Get the most up-to-date, relevant industry knowledge and skills

OMBS has a multi-year license with KAZ and have just finished their first year. Here is a post delivered on LinkedIn.

## Keyboarding Skills For Students!

Throughout the Professional Business Diploma our students learn the online typing proficiency qualification **KAZ TYPE Limited**, an important technical skill that enables them to be time efficient and communicate effectively.

Our students have their own portal login to assess their progress through modules, are given lesson time to practice their skills and are expected to reach a minimum of 60 wpm.

Some of our students can reach 70-80 wpm! 

The module is also CPD accredited, so students also receive that certificate too!

## Recent graduates are saying the following about Oxford Media & Business School:

*"I chose this course as it is a fast track to the work place, I love the size OMBS and everything that it offers. The course has benefitted me in many ways, but especially what to expect in the work place. I have loved being a student in Oxford."*

*"I heard about OMBS through a friend and wanted to follow in her success. I have learnt so many transferable skills and attributes that I can take forward into any professional setting."*
