KEYBOARD A-Z TEACHING TYPING SKILLS SINCE 1995

Hi everyone,

Hope you are all well and enjoyed the summer, which all does seem a long time ago now!

Just to avoid any confusion, we have the following three DSA products available:

**Neurodiverse 16+**  
(Download only)

**£39.95**

**City & Guilds**  
(Online only)

**£75**

**Special DSA AT Bundle**  
(Download + Online)

**£95**

Our 'DSA AT Bundle', consisting of both our Neurodiverse Download **and** our Online City & Guilds Assured edition is now available. This will allow students to progress onto the C&G assessment, should they wish to validate skills their learning and without any pressure.

*"A City & Guilds Assured programme offers external validation from a trusted global brand, providing a mark of learning quality and credibility."*

On successfully completing this course, candidates will receive a digital certificate and a co-branded digital badge to showcase their quality skill externally via the web on social media profiles, CVs and job applications.

**The main purpose of this City & Guilds edition is to validate their achievement and incentivise students to complete the course, automatise their new skill and increase their productivity and work flow. This will enable them to multi-task; process, plan, proof read and edit, whilst instilling confidence in their ability.**

## BESA Learned Roadshow - supported by DfE

We will be taking part in the BESA Learned roadshows, starting in November and kicking off with the SEND edition at the CEME Conference Centre, East London on 14th.
